

03/31

Dear Parents & Guardians,

Thank you for all of your kind words, support, and well wishes over the last few weeks. They are truly appreciated! These unprecedented times really affirm to all of us how much we care for and truly value each of our students!

As I've discussed with many of you, we will be starting Phase II of our Distance Learning Program on **Wednesday, April 1st**. Please refer to the following documents:

1. CJR Education Continuity Plan Phase II Description
2. Directions & Expectations for Students Accessing Schoology Dashboard
3. Directions for Day Students to Access School Based Email Accounts

The emails are very important because our goal is to continue to reinforce a strong learning environment based on positive relationships between the students & the staff and each other. In order to best ensure our students' safety, users on this domain will only be able to email within the domain - to their teachers or each other.

You and your child will be receiving correspondence from Ashley Ojok, LCSW, to develop a schedule for group counseling, individualized sessions, and parent meetings.

Several of you will be receiving correspondence from Amy Dumoch, MS, CCC-SLP, to develop a schedule for speech therapy.

I will be reaching out to the students and their parents who are graduating from high school this June or August to answer any questions you have.

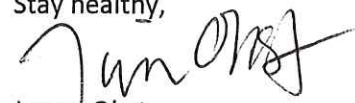

Our total commitment is to continue to provide the necessary coursework so that every student graduates as planned.

You will continue to receive your child's Weekly Progress Report via email every Friday.

We need all of your support as we move forward. Simply said, we cannot do this without you. Please reach out to me in real time if you are having any problems implementing this plan. Our only goal is to help make our students successful.

Truly, thank you all!

Stay healthy,

James Obst
